

DEFEATING NEW YORK STATE'S PARENT REPLACEMENT ACT

WWW.PROTECTKIDSNY.COM

What's at stake if Prop One passes:

The New York State government could have more authority than parents in making medical and other important decisions for their children.

- Children under the age of 18 could have the right to medical procedures, including irreversible "gender affirming" procedures without parental notice or consent.
- Biological males could be allowed to compete against biological females in school sports without restrictions.
- Schools could be banned from disclosing to parents that their children are becoming transgender.
- Protections for churches and other religious organizations and non-profits could be eroded regarding beliefs that run contrary to newly "created 'rights' in Prop One.

DEFEATING NEW YORK STATE'S ERA / PROP ONE

WWW.PROTECTKIDSNY.COM

FLIP YOUR BALLOT OVER & VOTE NO

If passed, Prop One, or the so-called ERA would open the proverbial Pandora's Box.

If passed, by voters in November, the amendment would encourage massive waves of litigation against common sense protections for our children and elderly. Prop 1 would erode basic safe guards for religious institutions, programs, practices, hospitals, and private and parochial schools,

Should courts be able to override parental rights & responsibility or strike down their ability of loving parents to protect and raise their children?
